Cocker Field Trial Judge Criteria & NCC Judge Selection -

The committee discussed and reviewed the final draft of the cocker field trial judge criteria that will be presented to the ECSCA Board for approval at their September meeting. Following that a lengthy discussion of the NCC judge selection criteria ensued. Dennis Joannides made a motion that outlined the NCC judge selection process as follows:

- 1) Clubs active in holding field trials starting from the first field trial after the last NCC, including the club that hosted the last NCC, to the last trial before the current NCC, will be asked to submit a name of a person who they feel is qualified to be an NCC Judge.
- 2) The list will be reviewed by the FTC and a list with a minimum of five (5) qualified names will be submitted to a ballot vote by the owners of dogs qualified to enter the NCC.

The motion was seconded by Sue Wilson and the motion was unanimously approved by the members present.

Buzz will send a final draft to committee members for review prior to submission to the ECSCA Board.

Harold Bixby Award –

Committee members were encouraged contact their constituents and to submit names for nomination to this prestigious award. Buzz has contacted Terri Burrows to see if past recipients may be listed on the ECSCA website. He has also inquired about having past NCC prints listed for sale on the ECSCA website.
